PROJECTS DETAILS

Project #1

Project Name	**Mission Excel IT (MEIT)**
Client	CGDA (Controller General of Defence Accounts)
Technologies	Apache Tomcat 5.5, Oracle 9i, Java Servlet 2.3, JSP.

The aim of Mission Excel IT is total integrated automation of all functions of the Department including providing network connectivity to all its offices.

We have taken this opportunity to automate the entire CGDA processes which includes automation of various wings like Audit, Admin , IFA, EDP.

The Project KRA's includes to individually automate all these wings so that they will be on same platform using Java/J2EE technologies.

Roles & Responsibilities:

- Requirement Gathering for the activities in Admin Wings.
- Preparation of MOM (Minutes of Meetings).
- Preparation of URS Validation Reports.

Project#2

Project Name	**E - Distribution.**
Technologies	Apache Tomcat 4.1, Java Servlet 2.3, Oracle.

This Project is aimed at providing on-line placement of orders and providing the Logistics-related information to internal users (company personnel) and external users (Customers/distributors/business partners).

Activities included:

- Requirement Study
- Coding and Functional Testing For Various Modules
